Dear CPT Doe:

During the past few weeks you may have been asked to assist in a survey of great importance to the Department of Defense. We have attempted to mail a copy of the 1998 Health Care Survey of DoD Beneficiaries to you with my personal request to participate. Participation in the survey is voluntary; however, your comments are important. The results from this survey will be used to better understand where improvements can be made in the military health services system. To have your voice heard this survey must be received soon.

The Survey Operations Center has apparently not received your completed survey. If you have completed and mailed the survey, thank you. If you have not completed the survey, please take some time--about twenty to thirty minutes--from your busy schedule to do so now. A duplicate survey is enclosed for your convenience. Once it is completed, please return it immediately in the envelope provided.

You were selected from a random sample of active duty members, family members, retirees, and family members of retirees. Your response will represent the opinions and attitudes of others who were not selected to participate and so your completion of the survey is appreciated. I want to assure you that your identity will be closely guarded. Individual answers will be held in strictest confidence, and your response will not be identified in any reports or release of data.

Please take the time to express your views and concerns by completing and mailing the survey today. Thank you very much for doing so.

APPENDIX D

PLAN FOR DATA QUALITY
CODING SCHEME AND CODING TABLES

98 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) -- FORM A
CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS	ASCII/EBCDIC	
Numeric	Numeric	Description
.	-9	No response
.A	-8	Multiple response error
.O	-7	Out of range error
.N	-6	Not Applicable or valid skip
.I	-4	Incomplete grid error
.C	-1	Question should not have been answered. It should have been skipped
.B		No Survey returned

Missing values '.', multiple responses '.A', and incomplete grids '.I' are encoded prior to implementation of the Coding Scheme Notes (see below). If no Survey is returned, the Coding Scheme is not applied.

Note 1: SRMO, SRDAY, SRDATE, SRYEAR
Values of SRMO and SRDAY are coded as marked and not converted to SAS date values; they are numeric. Values of SRDAY less than 1 or greater than 31 are coded as .O (out of range). Values of SRYEAR less than 1998 or greater than 1999 are coded as .O (out of range). SRDATE is a SAS date value created from SRMO, SRDAY, and SRYEAR.

Note 2: SRAGE, SRAGE_R
SRAGE is the self-reported age. No consistency checks between the self-reported age (SRAGE) in the questionnaire and the age of the person mailed the survey have been made.

SRAGE_R is the calculated age of the respondent at the time of the survey administration., i.e. the difference in years between the self-reported date (SRDATE) and the respondent's birth date from the DEERS file. If SRDATE is missing, SRAGE_R is the difference in years between the date the survey was scanned (SCANDATE) and the respondent's birth date on the sampling file.

Note 3: SREDA--SREDF, SREDHIGH
     SREDA—SREDF are examined to determine SREDHIGH, the highest education level marked.

SRSEX is the self-reported gender from question 26.

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (SRSEX), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.
